

MAPROPLAST B.V.
MACHINES & PROCESSING FOR PLASTICS

THE ALTERNATIVE **Pay less, get more!**

Let our experience work for you

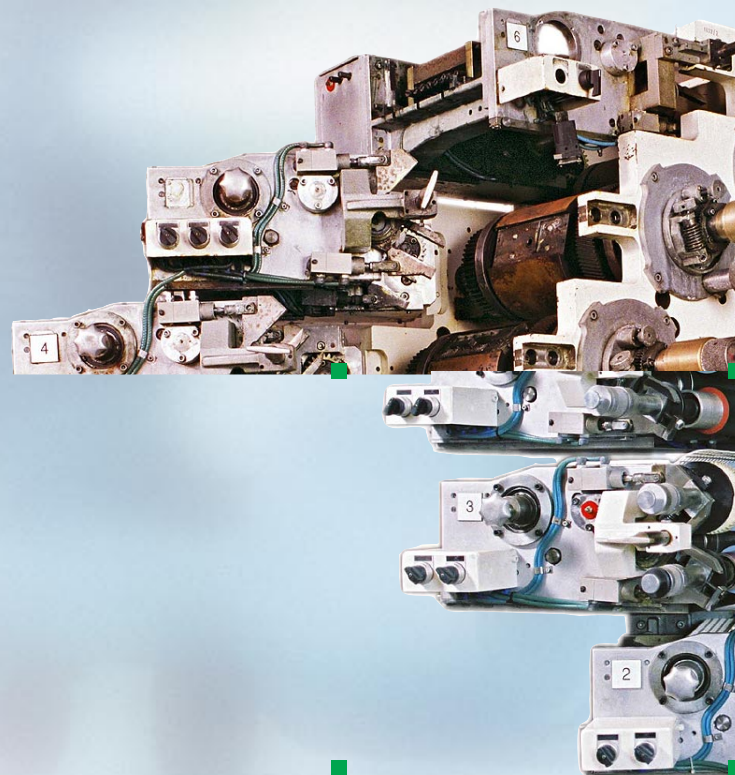

Maproplast stands for MACHines PROcessing for the PLASTics and with over 25 years of experience buying, (re)selling and overhauling machinery, we can safely say we have become experts in our particular field. From selling used injection

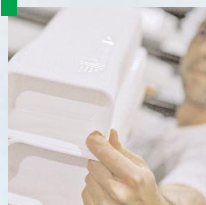

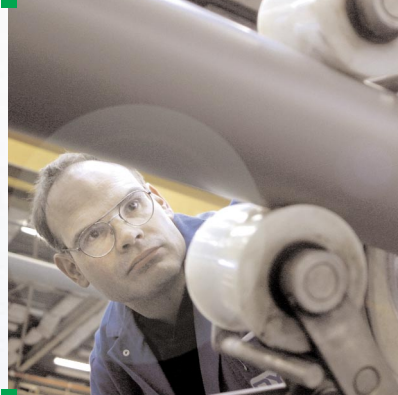

moulders 'as is', to delivering complete extrusion lines, thermoformers, blowmoulders and off-set printers; anything is possible!

 **MAPROPLAST B.V.**
MACHINES & PROCESSING FOR PLASTICS

Turn your idle machinery into cash!

Why waste precious space and money with idle machinery? We will turn your surplus assets and outdated machines into cash! If necessary, we can even arrange for disassembly, loading and transport of the outdated machinery from your factory.

We have your wishes in stock

On average, we have over 400 machines in stock in our 3000m² warehouse. From small lab size extruders to complete large diameter pipe extrusion lines, compounders, printers, injection moulders; you name it, we've got it! Please visit our website at www.maproplast.com for a complete list of machines currently in stock.

Nobody knows plastics machinery like we do

Don't just take it from us, take it from our satisfied clients from all over the world; used machines are always an alternative to new ones!

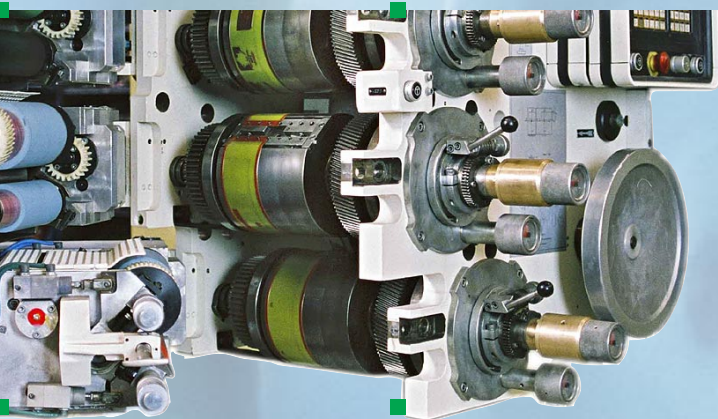

We don't take the term 'good as new' lightly. When we refurbish a machine, you can count on it working properly and maintenance-free for many years.

You decide which parts of the machine should be overhauled and which parts should remain as they are. The possibilities are endless. All work is carried out by our experts in a 600m², fully equipped workshop. A modern spray painting facility ensures the refurbished machines also look as new!

A great alternative, a sound investment!

Pay less, get more; that's our solemn promise to you. Our expertly refurbished machines will save you money and will work properly for many years to come. It's as if you were buying a brand new machine, only without the enormous price-tag!

From as good as gone to as good as new

- Injection moulding machinery
- Pipe and profile extrusion lines
- Sheet extrusion lines
- Mono- and multifilament lines
- Blow film extrusion lines
- Cable extrusion lines
- Compounding extrusion lines
- Recycling / Reclaim lines
- Single screw extruders
- Twin screw extruders
- Special extruders ■
- Screen-changers
- Die-heads
- Calibratiron / calanders
- Moulds
- Cooling / heating thermostatic baths
- Haul off equipment
- Saws
- Winding machinery
- Tilt lay-off table
- Special measurement- Regulating equipment
- Blow moulding machinery
- Foam machinery ■
- Presses
- Film welding- Bagmaking machinery
- Hot-plate welders
- Printing machinery
- Thermoforming machinery
- Packing- Sealing machinery
- Shrinkage- Socket machinery
- Dipping formers / Rotational moulders
- Filling machinery
- Grinders
- Granulators / Pelletizers
- Guillotines
- Shredders ■
- Agglomerators
- Vibration screens
- Mixers / Mixing rolls
- Dosing-, Colouring-, Weighing devices
- Blowers / Hopperloaders / Compressors
- Driers / Furnaces
- Metal seperators
- Sperators / Stackers / Shotw. controllers
- Silos
- Transportbelts / Devices
- Coolers
- Cooling towers ■
